

Personal Golf Vehicle Policy

Purpose

The purpose of this policy is to define the allowable use of Personal Golf Vehicles at the Saddlebrooke Ranch Golf Club.

Definitions

- Traditional Golf Carts ("TGC"). Self-explanatory.
- Personal Golf Vehicles ("PGV") are defined as:
 - Designed by the manufacturer to be used on golf courses.
 - May have two, three or four wheels.
 - Designed for one passenger.
 - Weigh less than 300 pounds (without the passenger). Anything larger or heavier would fall into the TGC category.

Policy

The policy can be adapted to support current or future restrictions on the number of TGCs allowed on holes.

- If the golf course allows four TGCs on the turf (this is the policy as of March 15, 2021), then any combination totaling four TGCs and PGVs in a group would be allowed.
- If the golf course requires that TGCs be shared, then these combinations would be allowed for each foursome:
 - 2 TGCs and 0 or 1 PGV
 - 1 TGC and 2 or 3 PGVs
 - 0 TGC and 4 PGVs

At all times PGVs must adhere to the same restrictions as TGCs on Par 3 holes and holes that are marked as "Cart Path Only".
